LETTER FROM THE CHAIRMAN AND THE CEO

Barry Callebaut Letter to Investors 2013/14

DEAR SHAREHOLDERS,

We are satisfied at having achieved another record year with strong top- and bottom-line growth. Sales volume was boosted by the cocoa business acquired in June 2013, and further supported by the continued growth of our three growth drivers which are emerging markets, Gourmet and strategic partnerships. All Product Groups contributed to the volume increase. For two years, we have increased our focus on margin improvements. With EBIT and net profit at a double-digit rate, this has paid off.

Strategically, the integration of the cocoa business acquired in 2013 was a clear priority for us. We successfully integrated this business on a global level by executing the milestones defined by a broad project team as well as by taking into consideration the cultural aspects. We also managed to turn the operating loss of the acquired business into a profit. And, most importantly, we have not lost any key people or key customers. The identified synergies have started to materialize. However, we need to further improve the profitability of this business. But we are on track.

We further implemented our strategy based on the four pillars and are proud of the following highlights:

- Expansion: We inaugurated a new cocoa factory in Makassar (Indonesia) and our first chocolate factory in Turkey. Our newly built chocolate factory in Santiago de Chile went on stream in August. In India, we are installing our first manufacturing site in Pune with production to start in early 2015.
- **Innovation:** We launched more than 20 novel products ranging from chocolates with a longer shelf life through reformulated chocolates like sugar- or fat-reduced products up to inclusions with multi-flavor or multi-texture sensations.

The integration of the cocoa business acquired in 2013 was a clear priority for us. We have not lost any key people or key customers.

• **Cost Leadership:** Manufacturing capacity expansions at existing sites strengthened our position as a cost leader while also easing previous capacity constraints, mainly in Western Europe.

LETTER FROM THE CHAIRMAN AND THE CEO

Barry Callebaut Letter to Investors 2013/14

• Sustainable Cocoa: In June 2014, together with other industry members, we organized the second CHOCOVISION conference to foster collaboration in our industry and to accelerate sustainability in the cocoa sector. Our company is also a driving force behind CocoaAction, announced by the World Cocoa Foundation (WCF) in May, which is considered the industry's most significant sustainability initiative ever.

Our annual strategy review concluded that our 4-pillar strategy based on Expansion, Innovation, Cost Leadership and Sustainable Cocoa still fits us. Actually, if we sharpen our focus, it will serve us as a platform for further growth.

We are very satisfied with our performance and grateful to our team of over 9,300 dedicated people, who are willing to go the extra mile.

Looking ahead, we see a challenging economic environment in the short term. Based on our proven strategy, the structural investments we have made and the global platforms we have built to strengthen our base, we see many opportunities along our three growth drivers being emerging markets, outsourcing & partnerships and our Gourmet business. We will tighten our cost controls and keep focusing on margin improvements. Together with our motivated team of over 9,300 colleagues, we are in a good position to continue to outperform the global chocolate market. This gives us the confidence to confirm our mid-term guidance¹.

Our convincing performance was only possible thanks to the work of our employees, who are willing and eager to go the extra mile, and whom we would like to thank. We also thank you, our shareholders, for your continued trust as well as our customers, who are our raison d'être.
