

THE COLOR CUISINE

THE COLOR CUISINETM

IBC Belgium

As this range of products is intended to be used in final consumer products, it may by itself contain coloring agents above maximum levels set by country regulations. We recommend to carefully evaluate color content in the final consumer products to ensure compliance with applicable color regulations. Our range of products has been produced according to the European legislation. For local compliance in other regions, please double-check with your local regulations. The color intensity of prints based on ingredients 'from natural origin' may deviate.

COCOART™

DEAR CHEF

Dear Chef,

This may sound strange, but we are still going to say it out loud: at IBC, we have an eye for taste. Eye for taste - is that even possible? Certainly.

Because no matter how excellent a dish may be, it is the eyes that decide in an instant whether someone will bite into it. What is more, up to 85% of what your consumers buy is influenced by its color.*

So it is the eye and not the mouth that first determines whether something will taste good.

Specialized in color and decorations, IBC's Color Cuisine™ has no problem with that. In our kitchen: cupboards bursting with knowledge and experience (over 25 years!) and counters where the appetite for new, strong products and sources of inspiration run free every day. And the best of the best of this culinary magic ... is all contained in this book. Newcomers in a starring role this year are our 3D cocoa pods you can fill to your heart's desire, our hip éclair toppers, black gold and silver truffle powders and over 100 new designs.

Regardless of the season or occasion, four of our top chefs guide you again with their tips, tricks and favorite decorations. Would you like even more color and ideas? You can also find The Color Cuisine™ via YouTube and Instagram. Stay tuned & inspired!

IN SPI RED BY CHEFS

The essence of The Color Cuisine™? Maybe it is that it is a place by and for chefs. You will find pure products, distinctive inspiration and handy tools. From restaurateurs to small and large professionals, we provide what makes the life of every customer easier.

MEET OUR CHEFS

When it comes to our team of chefs, we can only do one thing: set down our spatulas and whisks for a moment and look around in awe. Because with our culinary chefs' wide-ranging specialities, nationalities, backgrounds and so sources of inspiration, they are the heart of The Color Cuisine™. For this edition, we have again selected four chefs from our team who can enthusiastically inspire you with their creations.

De Deyne is patissier-chocolatier with an eye for that extra decorative dimension. And the highest level of connoisseurs know that, because as the chef at patisserie-chocolaterie Van Dender, he is also the provider of the Belgian Royal Court. Playing with structures, flavors and looks until they create a brilliant whole - that is child's play to him.

 @pascal_de_deyne

Christophe Declercq is an ice cream expert and pastry instructor at the gastronomical school Ter Groene Poorte. He has no problem revealing his recipes and kitchen secrets and has already collected them in numerous patisserie and ice cream books.

 @declercqchristophe

Annette Klingelhöfer is a chocolate sommelier who has won numerous awards. These include Best Christmas Baker of Germany in 2005. You don't need to look far to find the roots of her passion for chocolate. Together with her parents, she now runs the family pride in Marburg: their patisserie established in 1887.

 @sommeliere_du_chocolat

Jordi Farrés is chef chocolatier at the Chocolate Factory and Spanish ambassador for Callebaut. In his constant search for new flavors and applications, he developed his very own vision that he also unveils in The Color Cuisine™.

POWER FLOWERS™ APP

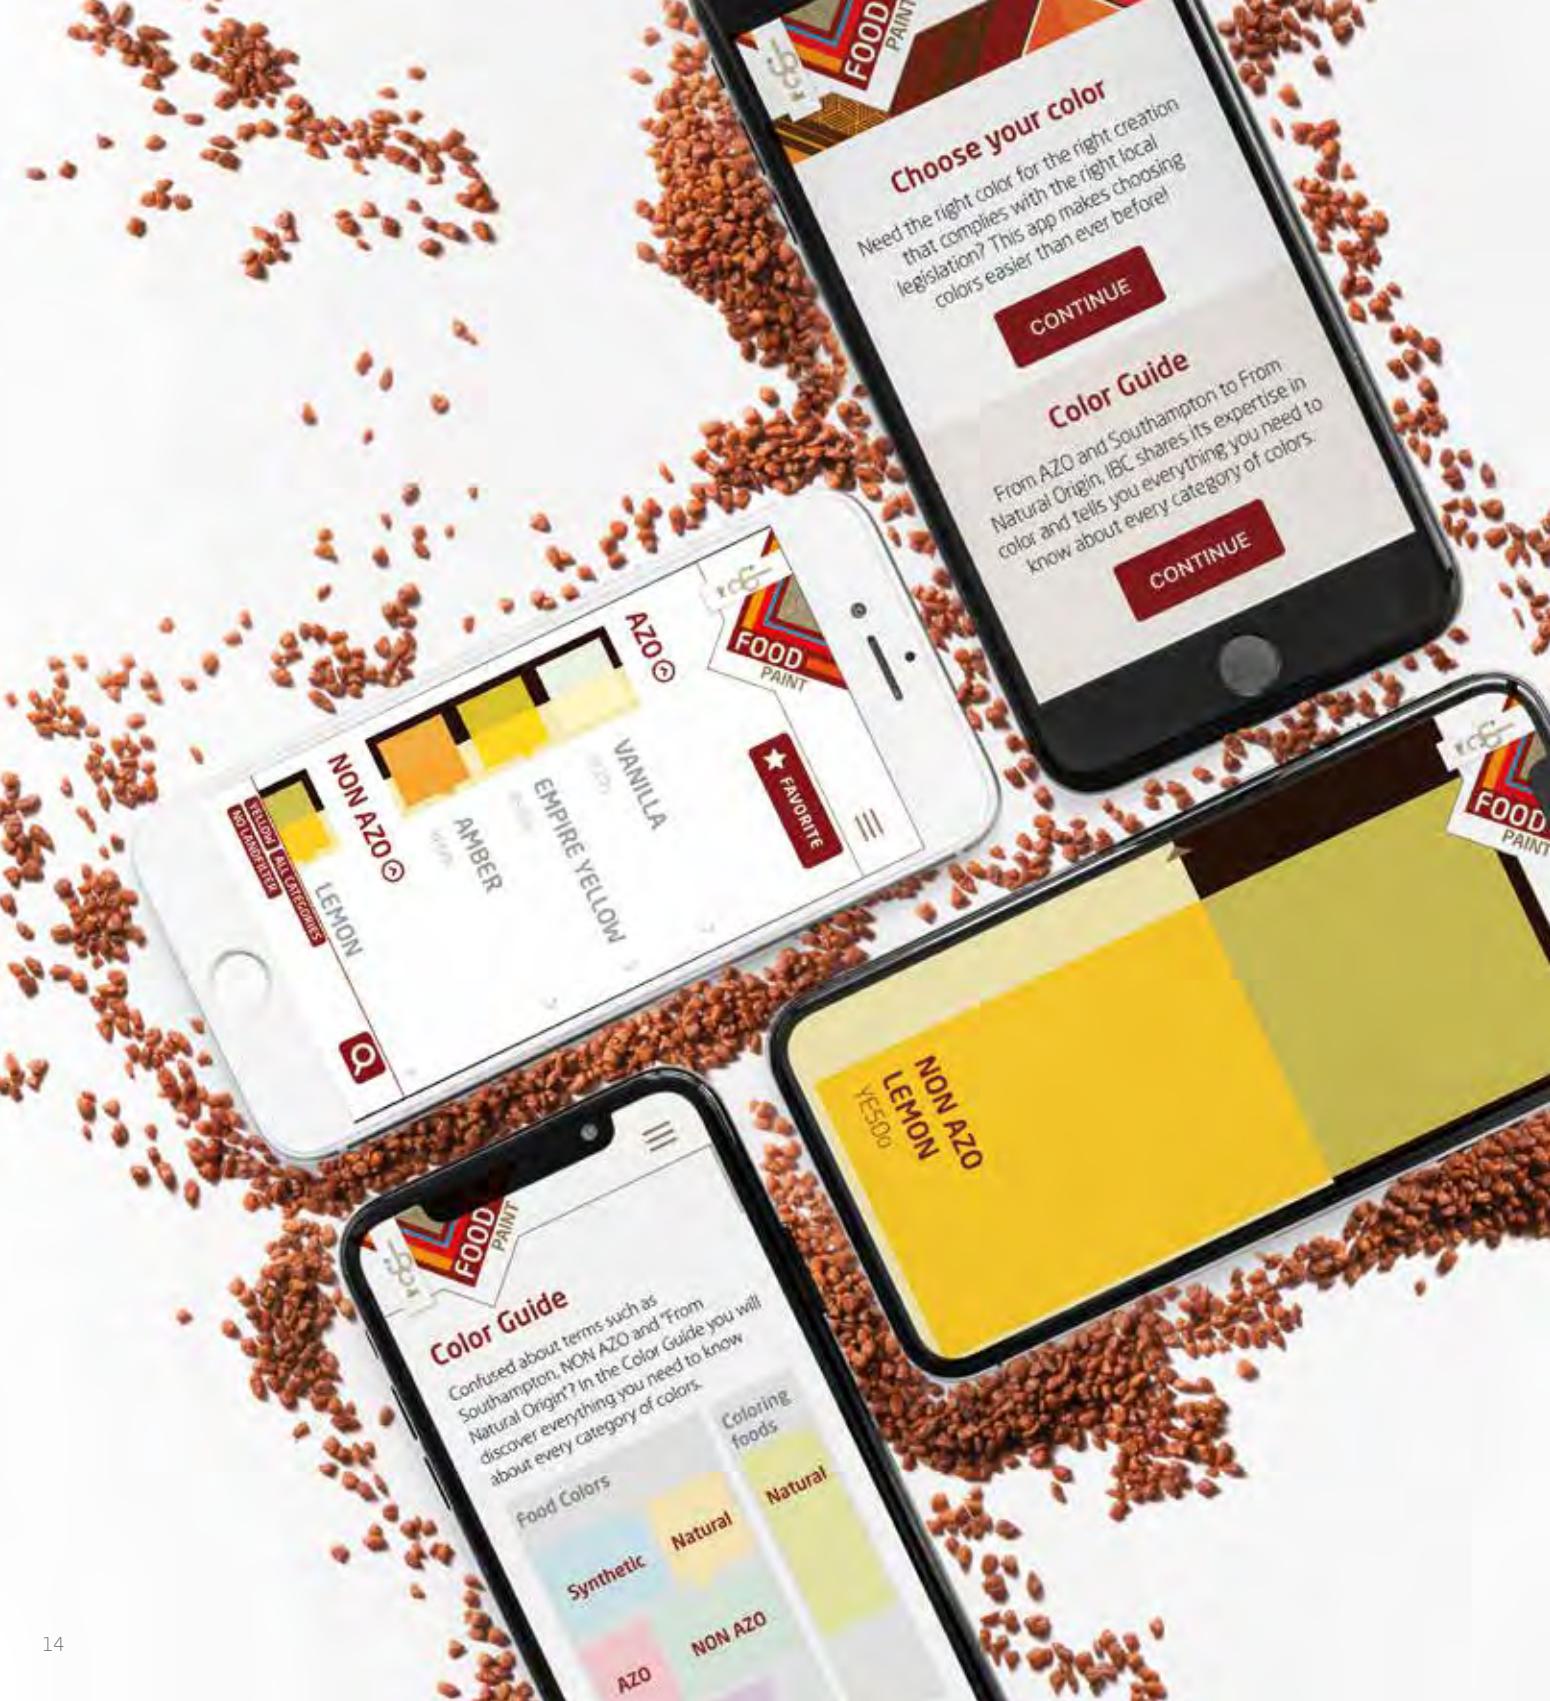

The mixing tool

Talking about mixing color in food, no other product beats the convenience of our Power Flowers™. The success of this range has led to an app that's just as easy to use. This Power Flower™ App is a library of colors. One that inspires and helps you pick your favorite shades. There's more, too: **it even checks and double-checks the permitted color quota of your recipe.** It's a simple and safe backup that deals with all your doubts about rules or restrictions.

FOOD PAINT APP

The printing tool

If you are into printing color, the Food Paint App is your clever assistant. **It holds IBC's entire spectrum of printing colors, from which you can choose à la carte.**

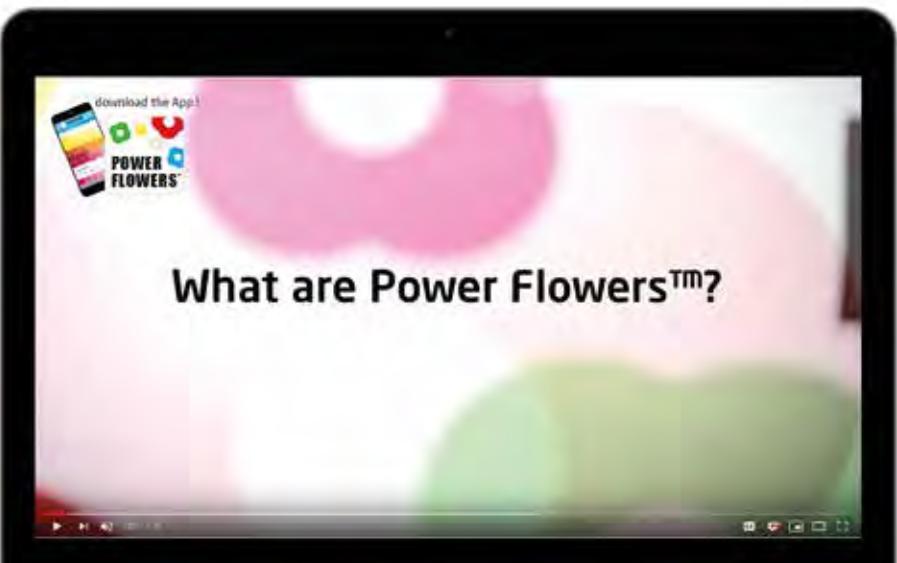

Picking and printing colors in itself is easy; applying the rules that go with them is tougher. Color restrictions are both country-specific and market-specific, which makes the legislation quite complex. **With the Food Paint App, we create clarity and convert the regulations into clear do's and don'ts.**

DIY: step by step to perfection

You may find that one dish very impressive, but how do you create the subtle color transitions? Or that complex shape? How do you give it that special texture? Or simply: where do you start? On our YouTube channel we show you the steps to perfection, including recipes!

100% NATURAL ORIGINS

*From
Natural
Origin*

Nature means color

Today we want to know what we're eating. And that's a good thing. As part of that positive awareness of sustainability and natural products, IBC wants to set its products apart as much as possible. That is why, **when you see the "From Natural Origin" label, you can rest assured that 100% of the colorings are from natural origins.** For example, the From Natural Origin Power Flowers™ trace directly back to a natural basis of beetroot, spirulina and curcumine, and the Flavor Flowers™ give the 100% natural flavor of matcha and hibiscus. These are even entirely free of e-number additives.

Cocoart

100% NATURAL, 100% COCOA

Striving for natural products, IBC also developed the COCOART™ range. A series of pure colors that are used in our ready-made COCOART™ decorations and transfer sheets. The secret of this collection? The origin of the colors. **Brown, black, violet or even red: each of these are earth tints made from pure cocoa powder.** So they are completely of natural origin, and completely free of additives and preservatives.

Curious about the possibilities? The **Cocoart**™ label shows you the way through The Color Cuisine™.

COCOA FOUNDATION HORIZONS

Honest business practices

The Color Cuisine™ wants to be a helpful kitchen for chefs and chocolatiers, but also for the cocoa farmers who are at the source of our cooking ability and pleasure. As a specialized duty of Barry Callebaut, we resolutely and exclusively select chocolate that supports the Cocoa Horizons Foundation.

Cocoa Horizons Foundation is a non-profit organization that invests in sustainable, enterprising agriculture and often makes it appealing for young cocoa farmers with systematically better education and pay.

Barry Callebaut invests so strongly in the future of local communities, but also in a drastically different future and development of cocoa in and of itself.

Knowing this, you can take pride in your dish and all the ingredients in it. Because we think the shining pride of a well-paid cocoa farmer visibly radiates through the rest of the chocolate chain. And not just a little bit through The Color Cuisine™.

'POWER' FULLY CONCENTRATED

CONSISTENT RESULTS

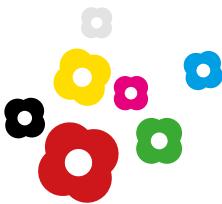

TIME-SAVING

MULTIPLE CHOICES

NOT ONLY CHOCOLATE

UNLIMITED COLOR PALETTE

6 advantages of Power Flowers™

1

'Power' fully concentrated

Because of the *ultra-concentrated power*, just a few Power Flowers™ are all you need to color 400 g of fat-based mass.

2

Not only chocolate

Power Flowers™ can color more than just chocolate. It's the ideal system for *coloring any fat-based recipe*, such as cocoa butter, ice cream, mousses, marzipan, glazes, sugar paste, sugar fondant, buttercream, dough and more.

3

Unlimited color palette

With Power Flowers™ in 4 primary colors (red, blue, yellow and white) and the Sparkling Power Flowers™ (gold, silver, copper and sparkling red), you can create every color imaginable. The Color Masters and the *free Mobile App* give the right formula for creating every possible color.

4

Multiple choices

Power Flowers™ exist in 'AZO', 'NON AZO' and 'From Natural Origin' ranges. This way you can create the full color spectrum *without compromising on specific rules imposed by legislation*. Prefer something festive? Sparkling Power Flowers™ add *bling* to your creations.

5

Time-saving

Power Flowers™ melt right away in the microwave, in liquid chocolate or cocoa butter. In other words, *you can immediately start coloring*. In just a matter of seconds, your chocolate or cocoa butter has the tone or color you want.

6

Consistent results

Power Flowers™ are easy to measure by breaking them into separate pieces. With the Color Masters and the *free Mobile App*, you have a formula for *every color*. The indicated amounts will guarantee the same result each and every time.

With no wastage.

How to create a color?

- Step 1** Choose your preferred color on the Color Masters¹ or Mobile App and put the (quantity/combination of) Power Flowers™ petals, as indicated in a bowl
- Step 2** Measure a multiple of 400 g white² chocolate
- Step 3** Pour $\frac{1}{4}$ th of the melted chocolate³ over the Power Flowers™ in the bowl
- Step 4** Wait 1 to 2 minutes until the Power Flowers™ are (almost) melted
- Step 5** Mix until the Power Flowers™ are completely dissolved
- Step 6** Add the remaining $\frac{3}{4}$ th of the chocolate and mix
- Step 7** Temper your colored chocolate if needed

Is my final product in accordance with the European legislation? Download the free Mobile App and find out.

¹ The actual colors may vary from those on the Color Masters or Mobile App depending on the background, the type, the thickness, the condition (crystallized or non crystallized) and the quality of crystallization as well as temperature, light source, etc... For spraying, the color indicated on the Color Masters can vary if you replace a part of the white chocolate with cocoa butter (< 50% cocoa butter). ² White chocolate e.g W2NV – Callebaut or Zéphyr – Cacao Barry.

³ The ideal temperature to color chocolate with Power Flowers™ is between 40 - 45 °C.
